

The quarterly water and sewer bills dated May, 30, 2018 with a due date June 29, 2018 included an incorrect interest charge. Please be advised that no incorrect interest charges were ever applied to those accounts but were unfortunately printed on the bill.

A corrected bill is being mailed which properly reflects the current interest charges, if any.

If any bill payment was made that included the incorrect interest charge displayed on the May 30, 2018 bill, a credit has already been applied to those accounts.

We sincerely apologize for the confusion. Please call (617) 972-6453 with any questions or concerns.
